BRIEF INTRODUCTION

1985

SINCE

30 Technology  
Innovation  
years

As a member of China Council of Promotion of International Trade and International Commerce Chamber of China, we are specialize in manufac-turing the production of water line fittings such as taps, valves, mixers and so on. Now, we enjoy the power to import and export by ourselves and we occupy a batch of high-quality engineers and technicians. They absorb the best of similar products both at home and abroad to perfect the products level continuously to meet with different customers' requirements.

Reasonable in design, advanced in technology, reliable in selling, attractive of appearance and complete in specifications, our products sold well far to more than at least 10 countries and areas. Such as Europe, South America, Middle East, South Africa, South East Asia, America etc. As a result of good quality and reputation, they are deeply accepted by foreign customers and considered as export products no need examination.

In line with the principle of high-quality and mutual benefit, we wish to establish and develop friendly cooperation with customers all over the world and joint them, to create a glorious 21st century. Welcome to our company for business talks.

# DESIGN CENTER

In TIEMA, painstaking research and development to create a good design, which makes our products not only impressive appearance, but also the technology, processes can be picky. For quality, we have invested more than any other production of sanitary equipment company more, and in our field to become the leader. Select TIEMA, you not only purchase products with advanced technology, and can obtain a higher comfort. To investigate the importance of quality and design, as well as the company's new strategy TIEMA "fashion water of life" behind the philosophical connotation and art.

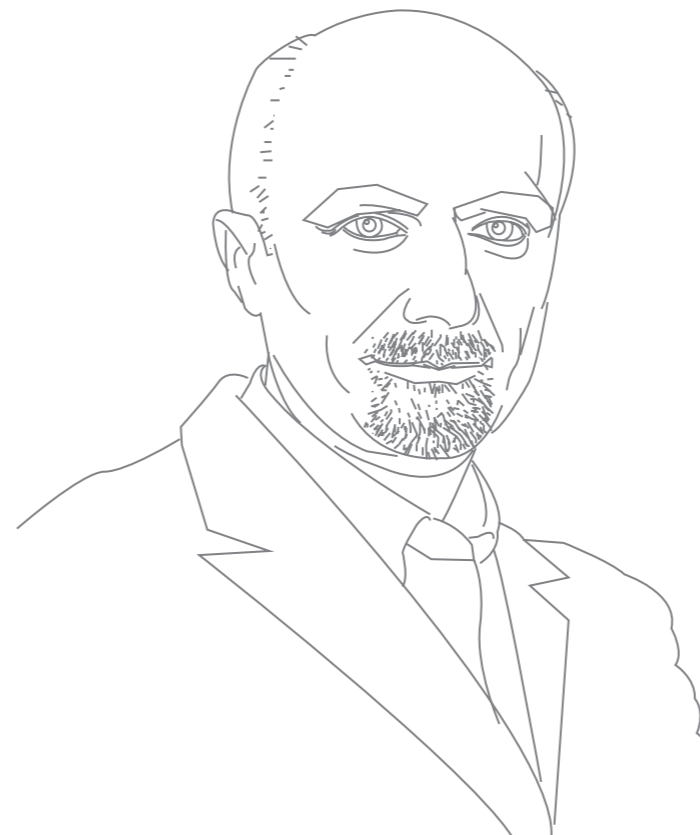

TIEMA establishes R&D centers Mainland China, and boasts over 12 appearance design and structure design engineers, who are professionally trained at home and abroad, and specialized to create high-quality bathroom & kitchen products for global consumers, based on human friendly design philosophy, by adopting a range of advanced technologies e.g. Reverse Engineering. So far since 1985, TIEMA has owned about 30 patent right for design and utility model, which had been granted by domestic and oversea authority institutions, and made magnificent contribution to the development of sanitary industry.

TIEMA create exclusive bathroom design your life, very close to the luxury, not far from the dream, for a new bathroom space to enjoy, create their own private space, is an ideal and goal of all TIEMA personnel.

# LEADING TECHNOLOGY

## Environmental design, focusing on eco-

Top design, without exception, are taken into account the delicate balance between man and nature, advocating environmental protection TIEMA, full consideration to improve water use efficiency, reduce noise pollution and other ecological optimization of the environment, carefully designed faucet flow devices, control their work noise, and to prevent waste water faucet suck, affecting clean water, so we produce harmonious combination shower and ecological environment.

## Excellent product quality

Taocifaxin, durable, lightweight feel smooth. High-tech surface treatment technology, through rigorous testing standards, products factory were 100% of the test water testing to ensure product leak.

## Quiet Design

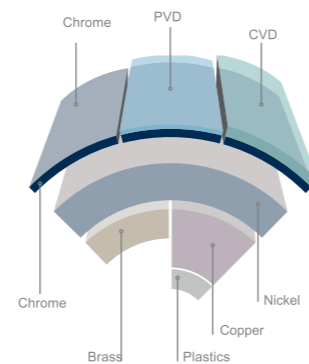

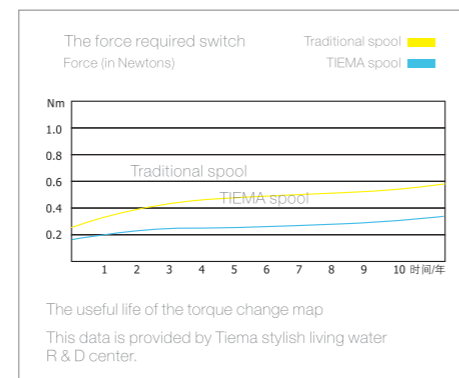

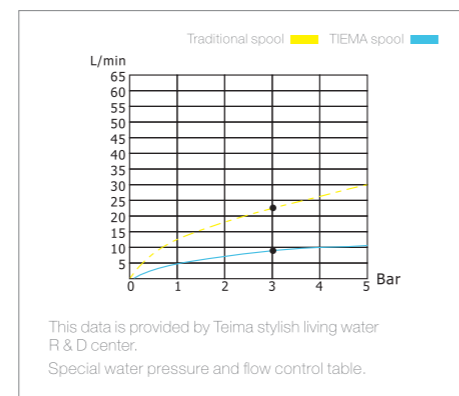

Spool specially designed noise abatement network, as well as special parts water connection, so TIEMA sound volume faucets meet the highest requirements of the public, brings feelings of pleasure use.

## High quality spool

TIEMA faucet core components - the spool, the spool rests with each TIEMA faucets special fired after two porcelain plate composed, its properties similar to diamonds, high hardness, thus there is no loss of long-term use, and the rest structures including double filtration system. Through a complex process integration of new physical properties comparable to diamond hardness of the material, after numerous tests, operating more than 500,000 times and 20 kg less water pressure on the structure of its precise terms are alone.

## TIEMA Surface treatment

Our dazzling chrome finish is in a class of its own thanks to the pioneering TIEMA Surface treatment technology. Our chrome plating process, refined over the past several decades, creates deep even layers of nickel and chromium. TIEMA polished chrome is known as one of the best surface finishes in the world. The result is a lustrous, mirror-like sheen that is soil repellent, scratch resistant, and non-tarnishing. TIEMA Surface treatment ensures a color-fast, good-as-new appearance for years to come.

Extremely Quiet. Low noise operation for quieter function than most other mixer taps.

Precise operability thanks to limited swivel radius of the spout.

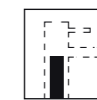

Quick and Easy to Clean. TIEMA Clean technology means that cleaning limescale build up in your retractable spray mixer is simpler and faster.

More range and functional plus thanks to a single- or multi-spray pull-out hand shower.

Consumes up to 30% less water and energy\* thanks to Teima water-saving functions.

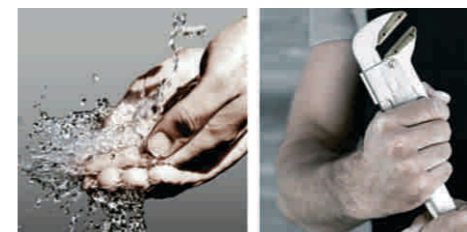

WATER SAFE. Hi-tech functional core. Preserves the water quality.

More flexibility thanks to changeable or detachable spout.

The five-layer electroplating creates extremely deep and uniform coatings, dustproof and antifouling, able to resist scratches and never fade.

# PRODUCTION PROCESS

By simply visiting the production process, the audience will soon find that we are not producing large quantities of products. In this factory, employees are working with the designer of the product. Want to put the designer's imagination into reality requires a lot of manual processes.

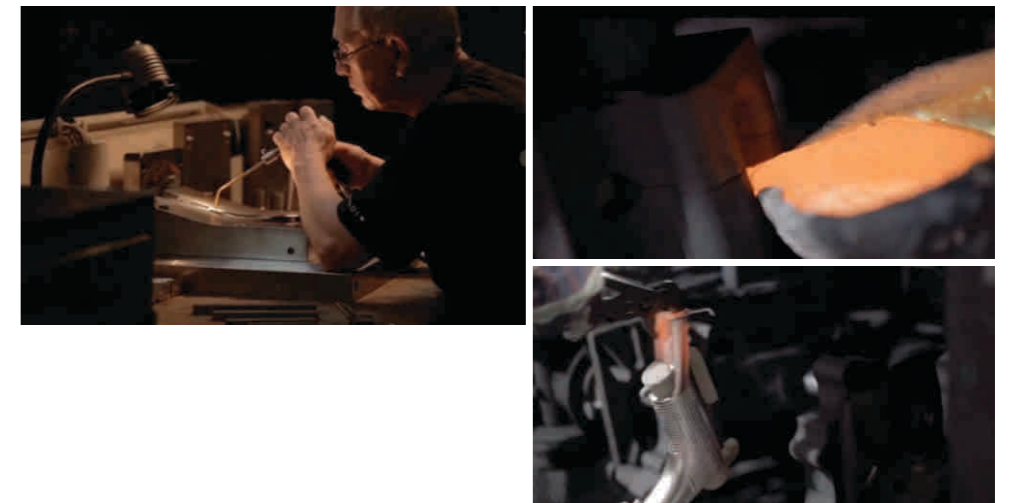

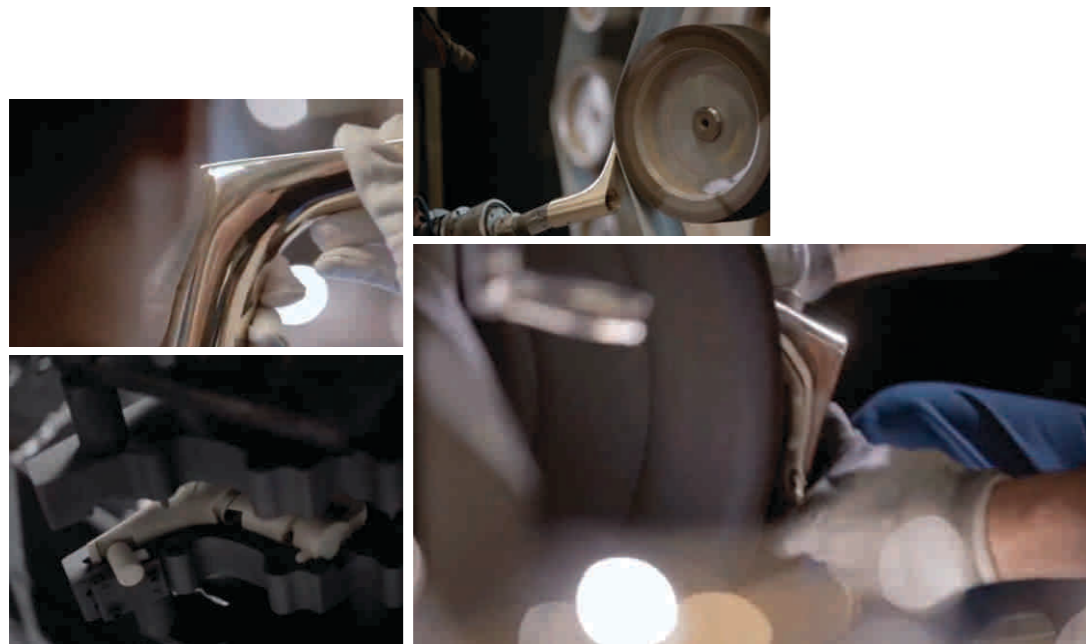

Designers of high demand led to the production needs of many different stages. For example, the faucet requires precise casting and cutting, and even a square surface for processing, in order to ensure accurate processing of its various surfaces. Before reaching the final aesthetic effect, while waiting for casting molds through different stages of production, like a diamond in the rough. TIEMA each product is hand polished until the bloom dazzling brilliance.

# EXCELLENT PRODUCT QUALITY

Taocifaxin, durable, lightweight feel smooth. High-tech surface treatment technology, through rigorous testing standards, products factory were 100% of the test water testing to ensure product leak.

2015 NEW

## DYNAMIC

With its crisp profile and choice of faucet styles, DYNAMIC Cosmopolitan ensures advanced performance for the most design-conscious consumers. Look closer and you will appreciate the finer details – a forward-leaning body to entice interaction and perfectly chamfered edges.

## DYNAMIC

Mixing cutting-edge, space-conscious design with trusted TIEMA performance, the new DYNAMIC Cosmopolitan collection is a stylish, sleek and streamlined choice for the modern bath. DYNAMIC Cosmopolitan offers unparalleled purity of design with dynamic architectural formation.
